" Surgeon-General with the Government of Madras.

K.C.K. 1/5.

Copy of a letter from the Surgeon-General, Madras, R.No. 902-G of 1924 dated the 17th April 1924.

A copy of the famine report received from the District Medical Officer, Bellary for the month of March 1924 is herewith furnished for information.

Enclosure.

FAMINE REPORT FOR THE MONTH OF MARCH 1924 - KOLUR FAMINE RELIEF WORK, BETTANY TALUK.

No additional camps were opened during the month. As stated in the last month's report the sub-assistant surgeon hankinized all the wells, inspected the gangs both morning and evening. Medicines are adequate for the treatment of sick. 377 cases were treated during the month. The general health of the coolies continued to be satisfactory.

As the camp is being pushed on further up the Siruguppa road up to 12th mile, it was suggested to the Collector to improve the two wells on either side of the road after 11th mile by deepening them with a view to have adequate supply of water. Arrangements were made to post sentries in order to prevent the practice of coolies walking into the wells.

The camp as a whole is much better then it was.

The strength of the camp on the last day of the month was as follows:-

Total of all relieved ...	1359
Nc gratuitiously relieved	257
Weakly gang ...	39
Kitchen ...	150
